MEMORANDUM FOR: Chairman, United States Intelligence Board
SUBJECT: Coverage of Cuba

1. This memorandum is for the information of the Director of Central Intelligence.
2. Area coverage on Cuba has now fallen to 67 per cent of the total area for the last 28 days. The outlook for the weather for Saturday and Sunday is unfavorable although SAC is watching the situation and would mount missions if weather improved. The area coverage is not expected to fall off until Tuesday. However, by Monday the coverage for the past month will show four highest priority targets not to have been covered.
3. This office has checked with DIA and CIA/OCI and there is no information, photographic or collateral, which indicates cause for undue concern. Unless there is some new development, no special action at this time is proposed.
